WE'LL TRY TO MAKE THIS ENTERTAINING.

DELIVERY/TRAVEL

LABOUR & ONSITE

Our labour fee ensures we can continue to spend the quality time required to make it look like your flowers just miraculously appeared out of thin air looking plump and perfect (and to hire assistants in sparkly leotards when we need extra hands)

30%

SET UP

We work this out as a percentage of the total floral cost. More flowers = more hours = more sequinned assistants. As a guide allow 30% of the total floral total.

PACK DOWN

After the last song has played, all the cake has been eaten and the bar is dry, we travel back to the venue to break down installs, collect, sort through and dispose of all green waste and carefully wrap up any vessels and mechanics used. Our sequinned helpers stick around and help us unpack the van at the studio, clean everything and pack it all away. Ready for the next party. Cost depends of size/number of items being packed down.

250-500

REPURPOSE FEE

Some floral items lend themselves to being repurposed after your ceremony. While flowers love their time in the spotlight, they'd don't love outdoor elements like heat, wind or rain. Our repurpose fee is worked out on a design by design basis. We wait back stage for our cue that your ceremony has concluded. We split jump into action, lifting and spinning the designs into their new positions. We zshoosh them with a few fresh stems we've allocated especially, just in case the weather hasn't been kind.
